Week 1 ≡

# Navigating Savanna

As we mentioned in the [Savanna Tutorial Video](https://intranet.alxswe.com/concepts/102449) (<https://intranet.alxswe.com/concepts/102449>) our course is organized by modules with projects, which you can think of as chapters. Every week, a new set of modules will be unlocked so you can access them. **The modules, and the pages within them, are meant to be studied in the order they are presented.** There is a natural progression to the material, so it will not be helpful for you to jump around. You can access the projects (and their relate modules) you have to complete from the left navigation bar by clicking the "Projects" icon.

All Bookmarks

The screenshot shows the ALX AI Career Essentials interface. On the left, a navigation bar contains icons for Home, Projects (highlighted with a red arrow), Checkmarks, Help, Education, Documents, Chat, and a Weather icon. The main content area displays 'Module Check: Welcome to Week 2' with details like 'By: ALX Team', 'Weight: 0', and project dates. Below this, a 'Concepts' section lists topics for the project.

## Module Check: Welcome to Week 2

By: ALX Team

Weight: 0

Ongoing second chance project - started Feb 19, 2024 2:00 AM, must end by Mar 12, 2024 2:00 AM

### Concepts

For this project, we expect you to look at these concepts:

- Module 2.1
- Intro to Week 2
- Week 2 Overview
- Preview: Weekly Test #2 & Milestone #2
- Pause for Reminders!
- Peer Review: The Basics
- How to Peer Review: A Step-by-Step Guide
- Welcome to Week 2 Simulation
- Week 2 Simulation: Product relaunch
- Module 2.1: End of Module

Clicking on any of the projects will show you the details of how modules and pages are arranged within the course. You can navigate them from the from the secondary navigation bar on the left.
