# Guideline Offenses

Most of the time, students conduct themselves ethically and within our Code of Conduct. But unfortunately, in some cases, we will need to take difficult decisions. Our system of offenses oversees disciplinary actions, including temporary suspension or expulsion from the program and fellowship. Hopefully, this won't apply to you, but we need to make sure everyone understands the consequences of violating our Code of Conduct.

## We place violations of the Code of Conduct into 3 categories, as follows:

### + Misuse

Claim of representing the organization in another capacity than that of a student or Fellow. This is limited to instances where no reputational damage is incurred by ALX/The ALX Fellowship.

### Use of abusive language+ Mild Offense

Engaging in activities, online or in the city hub spaces, which are not related to the purpose of the learning program or that disturb its activities.

Failure to comply with the regulations concerning the right usage of the organization logo and branding, for goals that do not pertain or align to organizational direction

### + Severe Offense

This is the text for section 3. It should show when the accordion for section 1 is clicked to reveal the content underneath. This is a great way to reduce the cognitive load on the learner by visually chunking content into different segments.

Copyright violation of program content, by publishing any piece of the program content without permission; including offering paid services that leverage any ALX/The ALX Fellowship content.

You can download these definitions from our **Definition of Offenses Guidelines**
